MINUTES:

Key Discussion Points	Discussion
Old Business:	
Continuing Business	An update was given by Ann on the campus construction process and t
	to the fourth floor of Parcels Hall by Fall of 2011.
New Business:	Student Activities: Jill Albus, student club president, told the group ab
	the student trip to Santa Fe in April and about fund raisers for the stud
	Career Clusters: Dr. Jackson explained the Career Cluster Concept to th
	Design and Drafting were included in the Architecture and Construction
	had questions about how this would impact the programs, but were as
	that this would be of benefit to the program in that it expanded the po
	Credit options.
Curriculum Decisions:	Ann Fry discussed the current 2009/10 Interior Design Academic Plan c
	copy of the curriculum plan and any changes or additions to the curricu
	discussed. Ann explained that in INDS 2330 – Interior Design Building 5
	discussed from a sustainability point of view. Since CIDA (Council for Ir
	requires the inclusion of information on Green design and sustainable I

	<p>requires the inclusion of information on green design and sustainable a good place to insert it into the plan of study. There was also discussion 1315 Materials, Methods, and Estimating. Traditionally, the class has c window treatments, soft treatments such as bedspreads, pillows, valar changing the format to a more general one of all materials used in an i product properties and why certain products were chosen for interior a how much product was needed for an installation. Judy Dahl expressed still understand the basis for estimating window treatments, etc. Ann course material taught on window treatments, just that it would not be class. There was general consensus that as long as the vocabulary and other soft interior treatments were still addressed, that the course cou</p>
Other:	Following the meeting, members were encouraged to view student pro
