MY CAREER

It's my AC

I know what I want: a great career, an exciting life filled with people and work I love. I'm making it all happen at Amarillo College. I have personal attention from top faculty along with a great start to a four-year university. Some of my friends are training for fantastic jobs after they leave AC.

IT'S MY CHOICE

At Amarillo College I can take classes whenever and wherever I want – mornings, afternoons, evenings, even on weekends. Sometimes sitting in class just isn't my style...that's why I take some classes over the internet. I study when I'm ready. AC has 150 degree and certificate programs and some are available totally online.
