

# General Insurance

---

## Salary Outlook

Please note: The following are NOT a guarantee of salary, just an estimated outlook in this industry.

**\$40,000–\$65,000**

---

## Job Titles in Insurance:

- Claims Adjusters
- Risk Managers
- Underwriters
- Account Manager
- Claims Analyst

Insurance is a high growth industry with great opportunities for those with the right credentials. Students have an opportunity to work for an employer with pay while getting on-the-job training.

## Job Functions

Depending on your employer you may do all or some of these functions: client facing activities and support for agents; underwriting review; resolving client issues; calculate potential losses; decide on coverage rates; settle insurance claims; review policies; process documents, health/dental, and many other entry level tasks. These jobs could be in any insurance areas, health, automotive, life, mortgage, or property & casualty.
