Welcome to The Center for Teaching and Learning. We are proud of the wide array of resources available for instructors and administrators from conference rooms to experimental collaborative classrooms. Thanks Amarillo College for making our new home a great resource for the entire college community.

# CENTER FOR TEACHING AND LEARNING

## The Link 205 J

A four-seat collaboration station enables groups to work together more efficiently by sharing computer screens via a flat-screen TV. CTL instructional designers often use these stations to help instructors with Blackboard. Two computers and one printer are available.

*Team Space*

## The Blend 205 V

A four-seat collaboration station and six seat station complement the Sharp 72 inch touch screen monitor.

## Adjunct Center 205 W

A dedicated room for adjunct faculty equipped with eight computers and two printers allows adjunct instructors a private room to use when visiting the Washington Street Campus.

## TeamSpace 204

The TeamSpace is a 14-seat conference room with a 70 inch Sharp touch-screen monitor with in room speakers and web cam. White board and multi media enabled conference tables are included. The room is equipped with a sink and kitchen style counter and cabinets.

## The Forum 207

The Forum is a large (30-seat) class room with a 72 inch Sharp touch-screen monitor, web camera, white boards, document camera and complete lectern.

## TILE Classroom 212

The TILE (Transform, Interact, Learn, Engage) Classroom is a new learning space that promotes participatory learning designed around active learning pedagogy. The space is equipped with tables, laptops, flat screen monitors and white boards to promote and support collaborative learning. The room has multi-media tables with accompanying monitors and individually

*TILE Classroom*

controlled speakers. Included at each table are graphics tablets and embedded power and internet connectors. There is a master lectern that can control the different monitors and speakers. The room seats over 32 students and includes a laptop recharging cabinet.

## Media Arcade 205R

The Media Arcade is a multi-purpose studio for the production and editing of AV materials. The studio has camera, sound, and lighting equipment for instructor use. Also included are two computers and white board.

## **Textbook/Course Materials Policy**

If an Instructor or Department profits from Amarillo College students from the sale of textbooks or any course materials, the Instructor must obtain pre-approval by a minimum of 3/5 vote from the Textbook Committee, which will be comprised of the following five members: (1) President of Faculty Senate; (2) Vice President of Faculty Senate; (3) Secretary of Faculty Senate; (4) Student Government Representative; and (5) Vice President of Academic Affairs. If one of the Faculty Senate Officer's materials is being proposed, that representative on the committee will be replaced by a member selected by majority vote of the Faculty Senate.

If the Instructor's proposal is rejected by the Textbook Committee, that faculty member can appeal the denial to the Professional Standards and Relations Committee, which shall have an evidentiary hearing and make a recommendation to the President, who would make a final determination.

The following criteria should be considered when determining the appropriateness of required or suggested course material for a class at Amarillo College:

1. Does the material promote student success?
2. Is the material appropriate for the Course Objectives?
3. Is the material reasonably priced?
4. Has the material been published by an independent publisher?
5. Has the material been peer-reviewed?
6. Is the material adopted at other schools?
7. Is the material reasonably used in the class?

None of these factors should be considered dispositive, and this list should not be considered exhaustive. All proposals shall be evaluated based on all of the facts and circumstances related to the situation.

The Instructor should address the applicability of these criteria in the proposal and include two letters of recommendation from faculty peers addressing the appropriateness of the material as proposed. Any denial shall include an explanation as to why it was rejected.

Question 1: If a Classified employee usurps administrative authority in (1) reprimanding Professional staff; (2) assignment of rooms causing mismatches with the resultant classes; (3) served in at least one personnel selection committee to select Professional staffing; was rude, insensitive, and spiteful; should he or she be reigned in and, if so, by whom?

If the problems created by the inappropriate conduct of a Classified employee have been repeatedly brought to the attention of the department head and HR resulting in the department head vociferously supporting the Classified employee over the Professional staff and expressly stated so and if HR disregarded multiple complaints over extended times and failed to maintain confidentiality of the complaint, where can aggrieved Professional staff go to have their legitimate complains addressed? If HR cannot be discrete as to the “whistle blowers” do you think perhaps the press would be more sensitive?

- **If a faculty member has a legitimate complaint, that person should take it to their Program Coordinator, and then the Department Chair, and then the Dean, and then the VPPA, and then the Professional Standards and Relations Committee, and then the Board of Regents (as provided in the Faculty Grievance Procedure in DGBA of the Board Policy Manual)**

Question 2. If the recommendations and comments of the Faculty Senate are not to be considered, why retain it?

- **Continuously communicates faculty concerns to administration**
- **Administers selection of the Mead Award winner**
- **Administers selection of the Professor Emeritus and hosts a reception**
- **Administers selection of the Piper Professor nominee**
- **Makes a salary proposal to President’s Cabinet every year**
- **Assists in faculty assignments to campus-wide committees**
- **Takes anonymous questions from faculty and tries to find answers**
- **Distributes and analyzes results from the annual Faculty Survey**
- **Assists with Pinning ceremonies to honor employee longevity**
- **Serves as Professional Standards and Relations Committee with respect to Faculty Grievances and makes a recommendation to the President**

Question 3: Has the desire for conformity reached the point that even members of a collegial body cannot voice a variant opinion? **See #1**

Question 4: Why are only women in positions of authority in the Department of Biology while mainly men are targeted for letters of written reprimand, threats and non-renewal? Does not gender discrimination violate Federal law? **See #1**

Question 5: Do the present dramatic escalation of staff written reprimands indicate loss or lack of leadership capacity? Aren’t these people who are so carelessly reprimanded actually highly educated, trained and experienced Professionals? Why treat them like field-hands? **See #1**

Question 6: Why do we have the loss of:

Scientific Symposia—originally 3 per semester  
money because the person making purchases does not know where, how or what to shop for  
flexibility denied support staff which results in loss of individualization for students  
office for part-time instructor  
sleep and peace of instructors; thus, loss of creativity and class energy  
cooperation among faculty members—we do not know who can be trusted  
quality of instruction because of loss of morale and enthusiasm  
respect from leaders to their staff  
respect for leaders from their staff  
truth—stated more than once to staff, “No, I do not want to hear.....”  
Consistency—male instructor let go because he would not use textbook; female instructor retained even though she did not use the textbook and her students were not required to bring textbooks to class  
fun in the teaching process and enjoyment of students  
academic freedom

- **See #1**

Question 7: Why are good instructors placed as administrators without any training in administration?

- **Good question, we will discuss possibility of Management training with VPAA**

Question 8: Why has the general administrative proposition that “conflicts of interest” should disqualify personnel from time to time in processing complaints before HR not been followed? Does not HR have a history of using judges with pre-conceived prejudices based on their personal relationship to the parties in the conflict. **See #1**

Question 9: Does the unusual number of staff losses suggest a loss of morale—perhaps a loss of respect? Professionals expect mutuality of respect . Is it true that mutuality no longer exists?

- **See #1**

### **Intellectual Property Rights**

Faculty Senate would like to propose the following paragraph be added as Paragraph 10 to the existing Intellectual Property Rights policy found in Section DBM of the Amarillo College Board Policy Manual:

10. Intellectual Property Owned by Amarillo College and the Creator. Intellectual property shall be jointly owned by Amarillo College and the creator if such material is conceived and developed by an Amarillo College faculty member for an Amarillo College course. Such course materials would include but not be limited to instructor-created videos, presentations, notes, lesson plans, handouts and other aids.

UT's policy provides, in part:

#### **When does an employee own intellectual property?**

If the intellectual property is embodied in a professional-, faculty-, researcher- or student-authored scholarly, educational (i.e. course materials), artistic, musical, literary or architectural work in the author's field of expertise (from here on, a "scholarly work"), even though such a work may be within the scope of employment and even if System resources were used.
