Agenda Item	Action / Discussion / Information	Responsibility
Old Business:	Minutes of last meeting	John Forbis
Continuing Business:	No continuing business from last meeting	
New Business:	Welcome / Introductions Building Reorganization	Dr. Kim Hays
Curriculum Decisions:	Continued Curriculum	John Forbis
Other:	Open Discussion	All
	Product Demonstration	All / Atlas Inspection Technologies

MINUTES:

Key Discussion Points	Discussion
Old Business:	Copies of minutes of the last Advisory Committee meeting were included in member's packets. Dr. Hays explained that the CCRAA Grant afforded many pieces of equipment but is now finished.
Continuing Business	No continuing business from last meeting
New Business:	Welcome and introductions were done. Dr. Hays reported about upcoming building renovations that will bring reorganization to the NDTE classrooms and labs.

Curriculum Decisions:	Copies of curriculum and course descriptions were included in members' packets. There were no changes to such this academic year. All the programs in the Manufacturing Technologies department continue to merge similar classes. Training scheduling continues to be addressed as industry prefers training to be conducted in 40-hour blocks, but the block scheduling does not work well for students from the general public. Any suggestions or input on this issue is welcomed.
Other:	With very little open discussion, the meeting was turned over to Justin Bogy and Darren Billings from Atlas Inspection Technologies for equipment presentation and demonstration.

CHAIRPERSON SIGNATURE:	DATE:	NEXT MEETING:
	May 17, 2011	Undecided at this time.
