### Advisory Committee Meeting Minutes

	Program. <i>Addendum: Kim Lacey arranged for another blood drive and it was a success! There were 7 donors.</i>	
<b>Student Representatives</b>	Burgoon reported that the sophomore students would like to see better communication between the techs and the students, as well as better communication between the techs and the techs. It would be nice if all the techs expectations were the same, but they are very different. Also, when students get reprimanded some techs are doing it front of other techs, patients, and students, and the students feel it is a form of public humiliation. Copenhaver reported that the freshmen students have the same concerns as the sophomore students. Also, techs are evaluating students that they have never worked with. Discussion about starting a pinning ceremony, as it was done in the past. Students are having a hard time getting financial aid.
