Has a substantial increase or decrease in the number of clock or credit hours awarded for successful completion of a program occurred (substantial defined as noticeable impact on time to completion)?	• Yes • No
Does this change involve a move from clock to credit hours?	• Yes • No
This change relates to the following items	• Add/remove special topics/local needs courses • Change the number of SCH of award • Change length of award by 1 semester or more • Change certificate from level-1 (TSI-waived) to Level 2 (TSI-liable) or vice versa • Exceptions to curriculum (i.e. course substitutions) *if moved up to a later certificate year.* • None of the Above

Course Sequencing and Requirements Notes:

For persons wishing to pursue a career in law enforcement. Students will receive a certificate enabling them to sit for the State Examination by Texas Commission on Law Enforcement (TCOLE) to become a Licensed Peace Officer. The hours will also apply toward an Associate of Applied Science Degree in Criminal Justice Law Enforcement. A student desiring entrance into this program must contact the Program Advisor or Criminal Justice Programs for instructions.

The following classes are the Texas Commission on Law Enforcement (TCOLE) approved Basic Peace Officer Academy and can only be taken as a Unit. Completion of all classes will enable students to sit for the state licensing (TCOLE) exam.

There is no order in which a person must take their CRIJ courses.

NEW PROGRAM COURSE SEQUENCING AND REQUIREMENTS – For WECM Submission/Advising

Ensure the following:

- If AAS, 50-75% is drawn from common technical specialty identified by CIP and the rest made up of 15 general education course hours and support courses (must document if more academic required due to FOS or advisory committee)
- If AAS, 3 or fewer courses can be Special Topics or Local Needs; If Level 2 certificate, 2 or fewer courses can be Special Topics or Local Needs; If Level 1 certificate, 1 or no courses can be Special Topics or Local Needs
- If AAS or CERT, all curriculum must align with licensing/accrediting authority (if applicable)
- Lecture/Lab Hours must fall into allowable contact ranges (See Table 4.1 on pg. 33 number at bottom or 37 pdf of GIPWE)
- For WECM, the course sequencing must be arranged so students cannot enroll in a course and its pre-requisite in same term unless both courses can be delivered in a compressed format without an overlap of the two courses.
- Semesters (16 weeks and shorter) should not award more than one SCH per week of instruction.

SLNG 2302	7	N/A	7	N/A	4	N/A	N/A	N/A

While dual-credit is holding steady, with forty-one enrolled students in SP16 and forty-seven in FA16, all other ASL courses are declining. It's hard to justify a degree, and all of the SACS requirements for assessment, with such low numbers. As of the start of the FA16 semester, Amarillo College had only eleven active ASL majors and only two incoming students who expressed interest, according to Advising (Ruth De Anda).

2. Transfer Issues: According to information I received from Advising, most of the ASL courses do not transfer to two of our main transfer institutions.

- TTU: SGNL 1301, 1302, and 2301 transfer in as ASL credits. SGNL 2302 and SLNG 1317 and 1321 do not transfer in as full credits.
- WTAMU: SGNL 1301 transfers in as a full credit. SGNL 1302 and SLNG 1317 may transfer in only as electives.

3. SACS Compliance Issues: Without a full-time faculty member in the ASL program, we are in violation of CR 2.8. Please see emboldened passage below for support.

Core Requirement 2.8

The number of full-time faculty members is adequate to support the mission of the institution and to ensure the quality and the integrity of each of its academic programs. Upon application for candidacy, an applicant institution demonstrates that it meets the comprehensive standard for faculty qualifications. (Faculty)

Rationale. Adequacy of faculty resources is necessary to ensure the quality and integrity of an institution's academic programs in order to support its mission. Moreover, the mission of the institution will govern the type of faculty employed, including the number, distribution, and expected role of full-time faculty in academic and governance matters. The achievement of the institution's mission with respect to teaching, research, and service requires a critical mass of full-time, qualified faculty to provide direction and oversight of academic programs. **The number of full-time faculty should be sufficient to fulfill basic faculty functions— curriculum design, development, and evaluation; teaching; identification and assessment of appropriate student learning outcomes; student advising; research, scholarship, and creative activity; and institutional and professional service.** Consequently, an institution relies on full-time faculty engagement in all aspects of the academic program; its quality and integrity are not driven solely by the number of hours that full-time faculty are teaching.

Currently, the ASL program has one adjunct who works full-time at Randall. Consequently, she is able to teach only one online non-DC section of ASL in any given semester because she also is instructor of record for two DC sections. In other words, she already teaches three sections and cannot teach more sections for AC.

Additionally, because of her part-time status and the lack of a full-time faculty member, we cannot adequately fulfill basic faculty functions for this program, not least of which is the development of a curriculum map and an assessment process.

4. No Timely Completion: For an ASL major to complete the major course requirements, eighteen semester hours of coursework must be taken. However, with one adjunct and no real prospects at finding another one in this local market, an ASL major would have to take six major courses over three years, since only one course could be taught in any given semester due to our adjunct constraints. Even with teaching the major course sequence one at a time over a three-year period, other ASL majors at different (especially earlier) stages in the program would be on standby waiting for the appropriate course in their sequence.

Teach-Out Plan	We have contacted all currently enrolled students, not on probation or suspension, who are ASL majors. Of the three majors on probation or suspension, only one has successfully completed one of the ASL major requirements. A teach out plan for these three students, for the reasons outlined in the justification section, would not be feasible. The other students are either planning on talking to their advisors to change to a GenEd degree or have transferred to WT or ACC.
