

## Planning and Evaluation Tracking

College Year: 2006-2007

Division of: Allied Health

Person Responsible: Bill Crawford,  
Chairman

Department of: Dental Hygiene

Person Responsible: Donna Cleere,  
Program Director

**Purpose Statement:** The dental hygiene program is committed to providing local, regional, and Texas statewide employers with much needed and qualified entry-level dental hygienists through a comprehensive didactic, laboratory and clinical curriculum that complies with all Commission on Dental Accreditation Standards for dental hygiene education programs and the Texas Higher Education Coordinating Board, and in doing so, enhance the quality of life for all of Texas. (Revised May 23, 2007)

Goal Statements	Objectives/Outcomes (including assessment tools and standards)	Results	Use of Results (including improvements and revisions)
1 Prepare the graduate to be able to successfully complete the National Dental Hygiene Board Examination within six months of the completion of the program.	1. Assessment Tools 1a. Written Dental Hygiene National Board Success Rates  Standard: 85% of the students will pass the written Dental Hygiene National Board with a minimum score of 75% on the first attempt as determined by examination results.	Year 2005 a. Written Dental Hygiene National Board Scores: 26/28 graduates passed on the first attempt as determined by examination results. (92.8% pass rate on the 1 <sup>st</sup> attempt) Of the other 2 students, one passed on the 2 <sup>nd</sup> attempt and the other student has not passed the exam to date.	1. Results are reviewed by category. Faculty will continue to monitor for areas which need improvement. The review is a part of the ongoing curriculum management plan as a part of the accreditation standards for dental hygiene education programs.
		Year 2006 a. Written Dental Hygiene National Board Scores: 27/29 graduates passed on the first attempt as determined by examination	A Mock National Board was developed by the faculty and implemented in the fall semester of 2006.

		<p>results. (93% pass rate on the 1<sup>st</sup> attempt) The other 2 students passed on the 2<sup>nd</sup> attempt.</p> <p>Year 2007</p> <p>a. Written Dental Hygiene National Board Scores: 29/29 graduates passed on the first attempt as determined by examination results. (100% pass rate)</p>	
<p>2. Prepare the graduate to be able to successfully complete the regional clinical board examination within six months of the completion of the program.</p>	<p>2. Assessment Tools</p> <p>2a. WREB Clinical Examination Success Rates</p> <p>Standard: 85% of the students will pass the WREB Clinical Examination with a minimum score of 75% on the first attempt as determined by examination results.</p>	<p>Year 2005</p> <p>a. Clinical Regional Boards: 25/28 graduates passed on the first attempt as determined by examination results. ((89.2% pass rate). The other 3 students passed on the 2<sup>nd</sup> attempt.</p> <p>Year 2006</p> <p>a. Clinical Regional Boards: 26/29 graduates passed on the first attempt as determined by Examination results. (89.6% Pass rate on the 1<sup>st</sup> attempt) The other 3 students passed on the 2<sup>nd</sup> attempt.</p> <p>Year 2007</p> <p>a. Clinical Regional Boards: 27/29 graduates passed on the first attempt as determined by examination</p>	<p>In the fall semester 2006, the Mock Clinical Exam was administered earlier in the fall and spring semester to help target students who were weak</p>

		results. (93% pass rate on the 1 <sup>st</sup> attempt) The other 2 students will be taking the WREB exam again in late June and September.	in clinical skills.  Faculty are meeting with each student on an individual basis each clinic session to help identify areas of weaknesses.
3. To provide the community with a valuable resource and access to dental hygiene care through services provided by students in the Dental Hygiene Clinic.	<p>3.Assessment Tool</p> <p>3 a. Statistical analysis of the relative dollar value of patient encounters and procedures provided by the students in the Dental Hygiene Program.</p> <p>Standard: What an average class of dental hygiene students provide annually in relation to dental hygiene services.</p>	3a. Values and patient experiences are compiled each semester to document the student's technical proficiency in all psychomotor skills required to fulfill their role as a dental hygiene student by tracking patient care experiences. Estimates of past year values and patient experiences are compiled each semester and are compared from year to year.	<p>3. Faculty will continue to monitor student progress and evaluate the psychomotor skills of each class. Results will be used to improve and or modify the dental hygiene curriculum and to advise or educate the community and the dental hygiene advisory board about these services.</p> <p>The review is a part of the ongoing curriculum management plan as part of the accreditation standards for dental hygiene education programs.</p>
4. To provide quality dental hygiene treatment which is patient centered.	<p>4.Assessment Tool</p> <p>4a. Patient Satisfaction Surveys</p> <p>Standard: 85% of the patients treated at the Amarillo College Dental Hygiene Clinic will rate the quality of care they received as being "satisfactory."</p>	<p>4. In order to measure the positive or negative outcome, patient satisfaction surveys are administered in each phase of clinic on a semester by semester basis.</p> <p>The survey results of patients continually exceed the 85% standard of being</p>	<p>4. The analysis of the data is used to make improvements when indicated in the dental hygiene clinic and the services offered to patients.</p> <p>In 2004, as a result of patient evaluations, parking spaces were created at the</p>

		satisfied with the quality of care received through the Dental Hygiene Clinic.	West Campus to accommodate parking for dental patients.
5. To provide the educational basis for the student to secure employment as a dental hygienist in a variety of settings.	<p>5.Assessment Tool 5a. Student Exit Survey</p> <p>Standard: 85% of the students who graduate from the Amarillo College Dental Hygiene Program will rate the quality of education they received as being "satisfactory."</p>	<p>5. The graduating class of May 2005 survey results exceed the 85% standard of being satisfied with the quality of education received at Amarillo College.</p> <p>The graduating class of May 2006 survey results exceed the 85% standard of being satisfied with the quality of education received at Amarillo College.</p> <p>The graduating class of May 2007 survey results exceed the 85% standard of being satisfied with the quality of education received at Amarillo College.</p>	<p>5. The analysis of the data will be used to monitor and make changes when indicated to improve the Dental Hygiene Program.</p> <p>The review is a part of the ongoing curriculum management plan as part of the accreditation standards for dental hygiene education programs.</p>
	<p>Assessment Tool 5b. Employer Survey</p> <p>Standard: 85% of the employers will rate the quality of education at</p>	<p>The results of employers who were surveyed in 2003 and 2005 exceeded the 85% standard of being satisfied with the quality of education</p>
