Person Responsible: Sheree Hilliard Talkington

Planning and Evaluation Tracking 2003-2004

Purpose Statement: To provide a program of study to prepare students to perform basic occupational therapy skills and procedures in any facility that utilizes occupational therapy. These skills and procedures must be practiced under the supervision of a registered occupational therapist (OTR). 2003-2004

Goal Statements	Assessment Tools/Standards	Results	Use of Results/Revisions
1. Prepare course materials so that information is presented in a sequential and understandable manner.	1. 70% of the students enrolled in each level of classes will successfully complete OTA classes scheduled each semester. Tool: final grade reports	1. 75% of students successfully completed OTA classes scheduled each semester	1. Revise sequence of content, emphasize the professional aspects of the degree program, and create a professional atmosphere for students.
2. Prepare the graduate to successfully complete the licensure examination within 8 months of program completion.	2. 70% of the students who take the licensure exam will pass the first time, 100 % within 1 year.	2. 75% of students successfully passed the certification exam on first attempt	2. Improve academic strengths of students, use application process to determine needs of students for additional counseling in academic skills
3. OTA students will be aware of the safety precautions and treatment indicators when choosing and implementing treatment activities and modalities for clients in any OT facility with a grade of 75 or better.	3. 70% of the students will complete Lab practicals, final course grades, practicum grades both Level I and II, certification exam results with a grade of 75% or better	3. 75% of students enrolled successfully complete all requirements with a grade of 75% or better.	3. Revise sequence of content, emphasize the professional aspects of the degree program, and create a professional atmosphere for students.
