Planning and Evaluation Tracking

College Year: 2008-2009

Division of: Allied Health   **Person Responsible: Bill Crawford, Chair**

Department of: Pharmacy Technology   **Person Responsible: Shawna Lopez**

Purpose Statement: The Amarillo College Pharmacy Technology program is committed to providing much-needed local, regional, and other Texas medical employers with qualified entry-level Pharmacy professionals through a comprehensive didactic, laboratory, and clinical curriculum that complies with all the requirements of the Texas Higher Education Coordinating Board. *Revised 09/29/08*

Goal Statements	Objectives/Outcomes (including assessment tools and standards)	Results	Use of Results (including improvements and revisions)
1. Prepare student to perform entry-level pharmacy technician duties.	1. After completion of 160 hours of clinical practicum, students will be able to demonstrate entry-level pharmacy technician skills with 78% or better competency as assessed by clinical evaluators.	1. 92% of the students enrolled in the clinical practicum 2007-08, demonstrated entry-level pharmacy technician skills with 78% or better competency as assessed by clinical evaluators.	1. The evaluation tool was revised to include goals and objectives set by the accrediting agency of the program. The results are used to determine competency of graduates.
2. Prepare the student to be able to successfully complete a program comprehensive evaluation tool as part of the final Pharmacy Technology course.	2. After completion of the Pharmacy Technology program, each student will be able to pass a program comprehensive evaluation tool prior to graduation with a minimum score of 70% or better.	2. The evaluation tool will be a comprehensive exam, which includes materials from all the pharmacy technology courses.	2. The exit evaluation tool will be taken online and will be implemented for the Spring 2009 class.
3. Prepare the graduate of the program to successfully complete the Pharmacy Technician Certification Board Examination.	3. After completion of the Pharmacy Technology program, 90% of graduates will pass the certification exam on their first attempt.	3. No official results from the certification board are available at this time.	3. Certification Review course has been implemented. The certification board has been notified and has listed Amarillo College as a school to receive official results.
