College Year: 2002-2003

Planning and Evaluation Tracking

Purpose Statement: **The Pharmacy Technology program provides a didactic, Laboratory and clinical curriculum that will enable each graduate to adequately perform those job related duties required of an entry-level Pharmacy Technology**

Goal Statements	Assessment Tools/Standards	Results	Use of Results/Revisions
1. Develop and maintain EMSP courses that offer the knowledge and skills needed to provide emergency medical care.	1. Every graduate will be able to perform, to industry based standards, 100% of entry-level skills as evaluated employer assessment of graduate performance	1. Input from pharmacists indicate that our students are well prepared	1.Plan to develop a more concise way to evaluate graduate knowledge and performance.
2.Prepare the student to be able to successfully complete a program comprehensive examination as a part of the final PHRA course	2. Each graduate will be able to pass, with a minimum score of 70% score, a general program comprehensive examination prior to graduation.	2. No exit exam in place at this time.	2. Develop a comprehensive exit exam using input from PHRA instructors and local pharmacists.
3. Prepare the graduate to be able to successfully complete the Pharmacy Technician Certification Board.	3. 90% of graduates will pass the Pharmacy Technician Certification Board Exam on the first attempt.	3. No results available at this time	3. Prepare a method of tracking the results of the Pharmacy Technician Certification Board Exam
