
CURRICULUM COMMITTEE MINUTES

NOVEMBER 10TH, 2023

Attendees: A quorum was established.

1. 9.22.23 Minutes – The minutes were approved.
2. Consent Agenda: COMM 2366 change per ACGM – No comments or questions concerning the consent agenda item were noted. A motion was made, followed by a second, to approve the consent agenda.
3. INMT Program Changes – David Hall – This petition proposed numerous changes to the INMT.AAS pathways, including the associated stackable certs and the addition of a new one around advanced manufacturing. The new pathway along with pathways for industrial maintenance and renewable energy would now share the same stackable cert (assistant). Course deletion and additions were proposed to streamline these pathways. All changes were approved by and a result of feedback from the INMT BLC. Questions were asked concerning the new advanced manufacturing pathway and the need for it, based on local industry and market trends. Additionally, the committee asked about the viability and integrity of the assistant certificate that three of the AAS pathways share. A motion was made, seconded, and the petition was approved.
