1. 11.10.23 Minutes were approved.
2. Consent Agenda:
  - a. OFAD → BTEC – Moved to regular agenda for discussion due to new information regarding reporting issues. Tabled for next CC mtg.
  - b. RNSG.AAS – Change lec/lab combo for RNSG 1201 to increase lab hours (allowable in WECM). Does not allow for enough lab hours currently; running out of time to check off on skills, so it's taking up other class time. New lec/lab will provide the necessary lab time. Approved.
  - c. Course cleanup to deactivate courses no longer offered was presented and approved.
3. MCHN.AAS (and certs) – Based on feedback from the BLC, program leadership petitioned to remove welding courses from this degree and replace them with NIMS credentialing courses. The changes will affect the MCHN.AAS, MCHN.CERT.ADV, and MCHN.CERT.BAS programs. A motion was made, seconded, and the petition was approved.
