#### Independent Auditor's Report

Board of Regents Amarillo College Amarillo, Texas

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of Amarillo College (the College) as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the College as of August 31, 2018, and the changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Emphasis of Matter

#### Change in Accounting Principle

As described in Note 2 to the financial statements, in 2018, the College adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* Our opinion is not modified with respect to this matter.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the College's Proportionate Share of the Net Pension Liability, the Schedule of the College's Contributions, Schedule of Proportionate Share of the Net OPEB Liability (ERS), Schedule of College's Contributions to the OPEB Plan, and Notes to Required Supplementary Information on pages 8-15 and pages 62-66 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the basic financial statements of the College. The accompanying supplemental information listed in the table of contents, Schedules A, B, C and D, is likewise presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, Schedule E, and Schedule of Expenditures of State of Texas Awards, Schedule F, as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and the State of Texas Uniform Grants Management Standards are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards, the Schedule of Expenditures of State of Texas Awards, and the Other Supplemental Information are the responsibility of management and were

derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards, the Schedule of Expenditures of State of Texas Awards, and the Other Supplemental Information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2018, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

Amarillo, Texas November 27, 2018 MANAGEMENT'S DISCUSSION AND ANALYSIS

#### INTRODUCTION

The 2018 fiscal year was the seventeenth fiscal year that Amarillo College (the College) has presented financial statements in the format required by Governmental Accounting Standards Board (GASB) Statements No. 34 and 35. In the past, audit reports had the financial statements differentiating between the separate funds and fund groups of the College's general ledger. Under the new format, Exhibits 1, 2, and 3 present the financial data from all funds consolidated into a single column.

**Exhibit 1**, the Statements of Net Position corresponds to the Balance Sheet on prior year statements. This exhibit presents the assets, liabilities, and net position of the College in a single columnar format as of the end of the fiscal year.

**Exhibit 2**, the Statements of Revenues, Expenses, and Changes in Net Position presents the activity that occurred in the assets, liabilities, and net position for the fiscal year that resulted in the presentation of those items on Exhibit 1. Local ad valorem taxes assessed by the College, investment income, Title IV financial aid program, and state appropriations are reported as non-operating revenues.

**Exhibit 3**, the Statements of Cash Flows presents the inflow and outflow of cash collected and disbursed by the College for the fiscal year.

**Schedule A**, the Schedule of Operating Revenues presents a detailed list of the operating revenues, classified as Educational Activities (Unrestricted, Restricted) and Auxiliary Enterprises.

**Schedule B**, the Schedule of Operating Expenses by Object details the expenditures for the fiscal year classified by function (element of cost) and by natural (object code) classification.

**Schedule C**, the Schedule of Nonoperating Revenues and Expenses provides detail for the fiscal year classified as Unrestricted, Restricted and Auxiliary Enterprises.

**Schedule D**, the Schedule of Net Position by Source and Availability provides a reconciliation of fund balances to net position as well as funds available for current operations.

**Schedule E**, the Schedule of Expenditures of Federal Awards provides detail for the fiscal year for expenditures of federal financial assistance.

**Schedule F**, the Schedule of Expenditures of State of Texas Awards provides detail for the fiscal year for expenditures of state financial assistance.

#### CONDENSED COMPARATIVE FINANCIAL INFORMATION

This is the sixteenth year that the College has prepared these financial statements in the GASB 34/35 format. Following are the comparative financial statements for fiscal years 2018, 2017, and 2016:

**Auxiliary Enterprises** – Profits from the College's auxiliary enterprises remain steady, which includes the operation of family housing at the East Campus and the operation of the campus bookstores. For several years' profit from auxiliary enterprises has been used to supplement the operation of the College's physical plant.

**Investment Income** – From 2003 to 2007 interest rates rose, increasing investment revenue; during 2008 interest rates started declining and continued to do so through 2016. In 2017 there was an increase in investment income due to improvement in the national economy that has continued through 2018.

Ad Valorem Tax Base – The Amarillo Junior College District (the District) property appraisal increased \$368 million or 2.85% from the 2017 tax year to the 2018 tax year, \$839 million or 5.9% from the 2016 tax year to the 2017 tax year, \$531 million or 4.56% from the 2015 tax year to the 2016 tax year. The increase is made up of new properties, improvements to existing properties, and increased valuations.

# ANALYSIS OF COLLEGE'S OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS (CONTINUED)

With the passage of the bond initiative in November of 2007 and the subsequent sale of \$68.3 million of construction bonds, the total tax rate for the 2017 tax year remained the same at \$.20750 per \$100 valuation; however, the maintenance and operations portion of the tax rate decreased \$0.0105 from the previous year and the interest and sinking portion was increased by the same amount. The last bond sale associated with the November 2007 bond initiative was on May 15, 2012, in the amount of \$14,305,000.

In November of 2006, the voters of the District passed the local option to freeze ad valorem taxes for seniors and disabled.

The Amarillo City Council adopted Ordinance No. 7012 on December 19, 2006, providing for the creation of a contiguous geographic area within the City to be a zone known as the Tax Increment Zone Number One, City of Amarillo, Texas (TIRZ #1) and the establishment of a tax increment fund for the Zone. The District's boundaries encompass the TIRZ #1. At a special meeting in November of 2007, the Board of Regents approved participation in the TIRZ #1. The contribution by the College to the TIRZ #1 district for 2017-18, 2016-17, and 2015-16, was \$119,988, \$107,872, and \$110,401 respectively.

The Amarillo City Council adopted Ordinance No. 7627 on November 08, 2016, providing for the creation of a second contiguous geographic area within the City to be a zone known as the East Gateway Tax Increment Zone Number 2, City of Amarillo, Texas (TIRZ #2) and the establishment of a tax increment fund for the Zone. The District's boundaries encompass the TIRZ #2. At a regular meeting on November 28, 2017, the Board of Regents approved participation in the TIRZ #2. The contribution by the College to the TIRZ #2 district for 2017-18 was \$3,623.

**Economic Outlook** – The Amarillo and regional economy continues to grow at a steady pace. The August, 2018 local unemployment rate of 3.7% is below the state and national averages of 3.9% and 3.9%, respectively. State appropriations for the upcoming biennium will be \$27.0 million which is slightly lower than the \$27.5 million from the 2016/2017 biennium or the \$30.5 million from the 2014/2015 biennium.

#### **EXPENSES**

**Employee Health Insurance** – The College offers health insurance to its employees through the Employees Retirement System of Texas (ERS). The amount funded by the state was \$3.9 million, \$3.47 million, and \$3.24 million for fiscal years 2018, 2017, and 2016, respectively.

Certain buildings on the College's East Campus were determined to be obsolete. Impairment loss recognized for 2018, 2017, and 2016 are \$-0-, \$-0-, and \$-0-, respectively. The College has entered into various construction contracts of which one contract was not fully completed at year end. Total current commitment is \$509,371 of which \$309,434 was expended at August 31, 2018.

At August 31, 2018, the College had six bond issues outstanding, consisting of a revenue bond and five general obligation bond issues. The outstanding balance as of August 31, 2018, on each of the issues is \$920,000, \$15,110,000, \$3,365,000, \$13,670,000, \$8,520,000 and \$17,515,000 for Series 2009, 2010, 2011, 2012, 2015, and 2016, respectively.

In July of 2015, \$8,705,000 of the Series 2008 issue was re-funded in order to lower the overall debt service requirements of the College. The Series 2015 issue resulted in an overall savings of approximately \$1,190,831.

In September of 2016, \$6,080,000 of the Series 2008 and \$11,745,000 of the Series 2009 issue were refunded in order to lower the overall debt service requirements of the College. The Series 2016 issue resulted in an overall savings of approximately \$1,997,289.

The 2011 revenue bond has an outstanding balance of \$3,365,000.

Total long-term debt, excluding current portion, at August 31, 2018, is \$59,100,000.

Additional information on the College's capital assets and noncurrent liabilities can be found in Notes 6, 7, 8, and 9, respectively, to the basic financial statements.

#### OTHER MATTERS AT THE COLLEGE

**Prior Period Adjustment** – In June of 2015, the GASB issued Statement No. 75 which established new accounting and financial reporting requirements for governments that provide their employees with postemployment benefits other than pensions (OPEB). The guidance contained in the Statement changes how governments recognize and measure liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. GASB 75 provides specific guidance dependent on whether the OPEB pension plan the government participates in is considered a single-employer plan, multiple-employer plan or cost-sharing multiple-employer plan.

Amarillo College provides OPEB benefits to its employees and retirees through its participation in the Employers Retirement System of Texas (ERS) health insurance plan. ERS is considered to be a multiple-employer, cost-sharing pension plan. A cost-sharing employer that has a special funding situation is required to recognize a liability for its proportionate share of the net OPEB liability. The prior period adjustment to record the net OPEB liability was (\$83,482,673) in 2018.

Amarillo Technical Center – Beginning with the 1996 fiscal year, the College assumed the operation of the Texas State Technical College Amarillo campus by act of the Texas State Legislature. The land and buildings were leased to the College through fiscal year 2002. On September 1, 2002, the land and facilities were transferred to the College by act of the Texas State Legislature. The Amarillo Technical Center has been renamed the Amarillo College East Campus. HB 521, which was passed in the Texas State Legislature, now gives the College the ability to dispose of excess acreage encompassed within the East Campus.

**Moore County Branch Campus** – In 1999 the voters of Moore County passed a Branch Campus Maintenance Tax to fund a branch campus of Amarillo College in Dumas, Texas.

The College agreed to underwrite the cost above revenues of the branch campus until the revenues generated by the operation of the campus were sufficient to cover the expenditures. The long-term financial plan for the Moore County Branch Campus projected that the campus would begin paying back the reserves used by the College in fiscal year 2004 and would have all of the reserves reimbursed during fiscal year 2006. During fiscal year 2003, the Moore County Branch Campus had paid back all underwriting funds.

The Amarillo College Moore County Campus Tactical Plan development for 2011-2015 has resulted in the construction of an approximately 30,000 square foot Career and Technical Center in Dumas, Texas. The Career and Technical Center is located in the Dumas Economic Development Corporation (DEDC) Business Park, which is located at Hwy 287 and Success Boulevard. DEDC donated approximately 11 acres in the Business Park with the understanding that construction was to commence within two years of the property being annexed to the City of Dumas and the utilities being located on the property. The Amarillo College Board of Regents approved the sale of \$4.5 million in Revenue Bonds to be used to finance the new Career and Technical Center. Construction on the Career and Technical Center was essentially completed by August 31, 2013.

# OTHER MATTERS AT THE COLLEGE (CONTINUED)

**Hereford Branch Campus** – In 2003, citizens of Hereford, Texas, organized a steering committee to investigate the possibility of establishing a community college branch campus to be located in their city. The steering committee approached the College and discussions began concerning the establishment of a branch campus. In 2004, voters of the Hereford Independent School District passed a Branch Campus Maintenance Tax to fund a branch campus of Amarillo College in Hereford. The Hereford Branch Campus began operation for the 2005 Fall Semester.

During September of 2011, the College was approached by an individual wanting to make a monetary donation for construction of a new campus for Amarillo College in Hereford. In January of 2012, the Everett & Mabel McDougal Hinkson Foundation, Inc. was established with a gift of \$3,000,000 for construction of a new campus. Various covenants were specified, one of which was the requirement of the College to spend \$2,000,000 for the construction. The College contribution would be the first money used during construction, which began in Fall of 2012 and was completed for Spring 2014 classes. The total cost to the College was approximately \$2.5 million, which was funded by use of AC reserves and Hereford Branch Campus reserves. The Hereford Economic Development Corporation donated approximately 10 acres and the College purchased an additional 10 acres of land for the site of the new campus.

#### BOND ELECTION

At the regularly scheduled meeting in August 2007, the Board of Regents passed an election order calling for a \$68.3 million bond election in November of 2007. On November 6, 2007, the District bond election was passed by the voters of the District. Bonds in the amount of \$22,000,000, \$16,000,000, \$16,000,000, and \$14,305,000 were sold June 15, 2008, June 15, 2009, June 15, 2010, and May 15, 2012, respectively. The proceeds from bond sales have been used for new construction, renovation of existing buildings, equipping classrooms, and technology infrastructure. Standard & Poor's continues to provide the College's bond rating of AA+ based upon the College's strong and likely sustainable financial performance trend, evidenced by very strong reserves and substantial taxing flexibility. A parking lot expansion was completed in 2009. The Science Laboratory Building, expansion of the Chilled Water Loop on Washington Street Campus, Jones Hall on West Campus, and Warren Hall renovations were completed in 2010. The East Campus HVAC and Parcells project were completed in 2011. Byrd Business Building and Allied Health renovations, along with the Downtown Campus Parking Lot, were completed in 2012. The Music Building and the ground floor of the Byrd Business Building and Parcells Hall were completed in 2013 as well as renovations to Building V & S on the East Campus. The Math Center project and the 2nd floor of the Lynn Library were funded partially by bond funds and partially by grant funds. In 2014, renovations to Dutton Hall and the Student Union building were completed. Several additional projects were completed in 2015. All bond funds have been fully expended as of August 31, 2016.

# AMARILLO FOUNDATION FOR EDUCATION AND BUSINESS

On November 14, 2012, the Board of Regents entered into an agreement with an independent foundation entitled Amarillo Foundation for Education and Business (AFEB) for the sole purpose of selling land on East Campus. The Board of Directors consists of five members, two members who shall be appointed by PRANA Development Group, LLC, and three members who will be appointed by the College. AFEB is considered a blended component unit of the College. As of August 31, 2014, five land sales had taken place for a total of 77.46 acres being sold for \$863,752. There were no land sales in 2018, 2017 or 2016.

#### SUBSEQUENT EVENTS

On January 23, 2018 the Amarillo College Board of Regents at its regular board meeting approved the sale of a 6.2588-acre tract of land to the City of Hereford at fair market value (\$218 thousand). The citizens of Hereford voted on November 6, 2018 to approve the joint use of funds from the Hereford Economic Development Corporation (\$2.5 million) and reserve funds from the City of Hereford (\$4 million) to be used toward acquiring land and constructing a new civic center that would be adjacent to the Amarillo College Campus.

### NOTE 1 - REPORTING ENTITY

Amarillo College (the College) was established in 1929, in accordance with the laws of the state of Texas, to serve the educational needs of Amarillo and the surrounding communities. The College is considered to be a special-purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 14. While the College receives funding from local, state, and federal sources and must comply with the spending, reporting, and recordkeeping requirements of these entities, it is not a component unit of any other governmental entity.

The financial reporting entity includes both the primary institution and all of its component units. The Amarillo Foundation for Education and Business is considered to be a blended component unit. The blended component unit, although legally separate, is in substance part of the College's operations and, therefore, is reported as if it were part of the College. See Note 26 for additional information.

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Reporting Guidelines**

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges.* The College applies all applicable GASB pronouncements. The College is reported as a special-purpose government engaged in business-type activities.

#### **Tuition Discounting**

#### Texas Public Education Grants

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code §56.033). When the award for tuition is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

#### Title IV, Higher Education Act Program Funds

Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as tuition discount. If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Tuition Discounting (Continued)

#### Other Tuition Discounts

The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amount is recorded as a tuition discount.

If the amount is disbursed directly to the student, the amount is recorded as a scholarship expense.

#### **Basis of Accounting**

The financial statements of the College have been prepared on the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay.

#### **Budgetary Data**

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Regents adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

#### **Deferred Inflows**

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Governments are only permitted to report deferred inflows in circumstances specifically authorized by the GASB. The College has deferred inflows related to the recording of the net pension liability and the OPEB liability.

#### Deferred Outflows

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. Governments are only permitted to report deferred outflows in circumstances specifically authorized by the GASB. The College has deferred outflows relating to deferred charges on refunding debt and the net pension liability and the OPEB liability.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash held in endowments is not considered to be cash and cash equivalents for cash flow purposes as it is permanently restricted.

#### **Restricted Cash**

Restricted cash consists of restricted funds from donors, unspent bond proceeds, sinking funds, and cash belonging to the Amarillo Foundation for Education and Business (AFEB).

#### Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase or are funds which have donor-imposed restrictions (endowments).

#### Inventories

Inventories consist of consumable office supplies, physical plant supplies (including fuel), computers, and bookstore stock. Inventories are valued at the lower of cost (under the first-in, first-out method) or market and are charged to expense as consumed.

#### **Capital Assets**

Capital assets are recorded at cost at the date of acquisition or fair value at the date of donation. The capitalization policy includes items valued at \$5,000 or more and a useful life of greater than two years. Renovations of \$100,000 or more to buildings, infrastructures, and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The following lives are used:

| Buildings  | 50 years |
|--|----------|
| Facilities and Other Improvements                  | 20 years |
| Library Books                                      | 15 years |
| Furniture, Machinery, Vehicles and Other Equipment | 10 years |
| Telecommunications and Peripheral Equipment        | 5 years  |

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Capital Assets (Continued)

The GASB issued Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, in November 2003. This Statement was effective for the College's fiscal year ending August 31, 2006. This Statement establishes accounting and financial reporting standards for impairment of capital assets and also clarifies and establishes accounting requirements for insurance recoveries. The College analyzed its capital assets for impairment in accordance with GASB Statement No. 42. As a result, there were no impairment losses recognized during 2018.

The College capitalizes interest costs incurred on funds used to construct property, plant and equipment. The capitalized interest is recorded as part of the assets to which it relates and is amortized over the asset's estimated useful life. Interest cost capitalized was \$-0- in 2018.

#### Unearned Revenues

Tuition, fees, and other revenues received and related to the periods after August 31, 2018, have been deferred. Tuition and fees of \$9,373,349 have been reported as unearned revenue at August 31, 2018.

#### Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS' fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **Other Postemployment Benefits**

The fiduciary net position of the Employee Retirement System of Texas (ERS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of information about assets, liabilities and additions to / deductions from ERS's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

#### Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Operating and Nonoperating Revenue and Expense Policy**

The College distinguishes operating revenues and expenses from nonoperating items. The College reports as a business-type activity and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. The principal operating revenues are tuition and related fees. The major nonoperating revenues are state allocations, Title IV financial aid programs, and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets.

When both restricted and unrestricted resources are available for use, it is the College's practice to use restricted resources first, and then unrestricted resources as they are needed.

#### **Change in Accounting Principles**

During fiscal year 2018, the College adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions,* which was effective for financial statements for periods beginning after June 15, 2017. This Statement improves financial reporting by enhancing the reporting of the other postemployment benefits (OPEB) and a more comprehensive measure of OPEB expense. With GASB 75, the College must assume their proportionate share of the Net OPEB of the Employee Retirement System of Texas (ERS). Adoption of GASB 75 required a prior period adjustment to report the effect of GASB 75 retroactively. There is added information available through new note disclosure and required supplementary information.

#### **Restatement of Beginning Net Position**

The College restated its Beginning Net Position by \$83,382,673. The decrease in net position was due to the following items:

| Decrease in net position due to the implementation of GASB 75<br>Increase in net position due to the addition of fixed assets not | \$ (83,482,673)         |

Beginning net position was \$86,678,370 and has been restated to \$3,295,697.

#### NOTE 3 - AUTHORIZED INVESTMENTS

The College is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the state of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment

#### NOTE 4 - DEPOSITS AND INVESTMENTS (CONTINUED)

As of August 31, 2018, the College had the following investments and maturities:

| Investment Type   | Market<br><u>Value</u>   | <u>Percent</u>     | Investment<br><u>Maturities (Years)</u> | Security<br><u>Rating</u> |
|---|--------------------------|--------------------|---|---------------------------|

**Interest Rate Risk** - Interest rate risk occurs when potential purchasers of debt securities do not agree to pay face value for those securities if interest rates rise. In accordance with state law and Board policy, the College does not purchase any investments with maturities greater than one year except for endowed funds which can be invested to a maximum of five years. The College uses the specific identification method to disclose interest rate risk.

**Concentration of Credit Risk** - Concentration risk is defined as positions of 5% or more in the securities of a single issuer. The College's investment policy states that the balance in external investment pools shall not exceed 35% of the total College investment portfolio unless approved by the Investment Committee of the Board of Regents. The College had no concentration of more than 5% as of August 31, 2018.

**Credit Risk** - In accordance with state law and the College's investment policy, with the exception of endowed investments, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, counties, etc. must be rated at least A.

**Custodial Credit Risk** - For deposits and investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of August 31, 2018, \$-0- of the College's bank balances of \$5,213,951 were exposed to custodial risk.

#### Participation in External Investment Pools

As of August 31, 2018, the carrying amount of amounts invested in investment pools was \$12,328,673. Investment pools are recorded at cost, which approximated market value at August 31, 2018. All investment pools are uninsured and are not registered with the Securities and Exchange Commission. Investment pools are not subject to custodial credit risk as they are not evidenced by securities that exist in physical or book entry form.

The College's investment in investment pools is TexPool Participant Services. TexPool Participant Services' regulatory oversight agent is the Texas Treasury Safekeeping Trust Company and their credit risk rating is AAAm. Their financial reports may be obtained by writing Federated Investment Management Company, 1001 Texas Avenue, Suite 1400, Houston, TX 77002.

#### NOTE 5 - FAIR VALUE MEASUREMENTS

The College follows Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, as guidance on fair value measurements. The standard establishes a three-level valuation hierarchy for disclosure based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). An asset's fair value measurement level within the hierarchy is based on the lowest level of input that is significant to the valuation.

The three levels are defined as follows:

- Level 1 Quoted prices for identical assets or liabilities in active markets.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The College uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the College measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

For the valuation of money market funds, TexPool Investments and mutual funds, at August 31, 2018, the College used quoted prices in principal active markets for identical assets as of the valuation date (Level 1).

#### NOTE 5 - FAIR VALUE MEASUREMENTS (CONTINUED)

#### Assets Measured at Fair Value on a Recurring Basis (Continued)

For the valuation of CDARS and certificates of deposit at August 31, 2018, the College used significant other observable inputs as of the valuation date, particularly dealer market price for comparable investments as of the valuation date (Level 2).

A summary of investments classified according to any restrictions at August 31, 2018 is as follows:

| Unrestricted investments     | <u>\$20,215,267</u> |

## **Operating Lease**

The College leases a building from a not-for-profit organization for \$1 a year for 36 months. The College is required to use this building to provide child care services. The lease was effective March 1, 2017 and expires February 29, 2020.

## NOTE 9 - NOTES PAYABLE

The College received a U.S. Department of Education Grant to fund a new building. The Title III Hispanic-Serving Institution (HSI) STEM Grant is funding the construction of a Greenhouse. Due to federal regulations and requirements, the College is not allowed to fund these projects up front and seek reimbursement for future years from the federal funding source. Therefore, a bank loan was required to complete the building project. The bank loan (including principal and interest) is being paid from federal grant sources and not by the College institutional funds.

Note payable for Title III HSI STEM Grant Contract

• Note will be used to pay for construction.

- Issued September 1, 2016
- Average Interest rate of bonds: 3.1211%
- Proceeds from Series: \$19,321,621 received, less cost of insurance of \$148,080, of which the remainder, \$19,173,541, was used in refunding part of the General Obligations Bonds Series 2008 and 2009.
- Source of revenue for the debt service Ad Valorem tax levied by the District. Outstanding balance at August 31, 2018 and 2017 was \$17,515,000 and \$17,615,000, respectively.
- The bonds are due in annual installments varying from \$690,613 to \$2,720,713 including interest with the interest rates from 2.00% to 4.00%, with the final installment due in 2029.

On September 1, 2016, Amarillo Junior College District issued general obligation bonds in the amount of \$17,720,000 with an interest rate from 2.00% to 4.00% to advance refund term bonds

## NOTE 10 - BONDS PAYABLE (CONTINUED)

with an interest rate from 4.05% to 5.00% and a par value of \$17,720,000. The term bonds mature on February 15, 2029 and are callable on February 15, 2026. The general obligation bonds were issued at par and, after paying issuance costs of \$148,080 and including the reoffering premium of \$1,601,621, the net proceeds were \$19,173,541. The net proceeds from the issuance of the general obligations bonds were used to purchase U.S. government securities, and those securities were deposited in an irrevocable trust with an escrow agent to provide debt service payments until the term bonds are called on February 15, 2018 for 2008 series and February 15, 2019 for 2009 series. The advance refunding met the requirements of an in-substance debt defeasance, and the term bonds were removed from the District's financial statements. The amount of the defeased bonds still outstanding at August 31, 2018 is \$11,745,000.

As a result of the advance refunding, the District reduced its total debt service requirements by \$1,997,289, which resulted in an economic gain of \$1,936,084 and an accounting gain of \$1,777,734.

## NOTE 11 - EMPLOYEES' RETIREMENT PLANS

## Plan Description

The College participates in a cost-sharing, multiple-employer defined benefit pension plan (the Plan) that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67, and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code (IRC). The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefits.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

## Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <a href="http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR">http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR</a>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

#### **Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable

## NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

## Benefits Provided (Continued)

salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries. The normal service retirement is at age 65 with 5 years of service credit or when the sum of the member's age and years of credited service equals 80 or more years.

Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

#### Contributions

Contribution requirements are established or amended pursuant to Article XVI, Section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code Section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The Texas Legislature, General Appropriations Act (GAA) establishes the employer contribution rates for fiscal years 2017 and 2018. Contribution amounts are as follows:

|   | Contributions<br><u>Required and Made</u> |
|---|---|
| 2018 Member (Employee) Contributions          | \$ 2,114,870                              |
| 2018 College (Employer) Contributions         | 1,154,173                                 |
| 2017 Non-employer contributing agency (State) | 642,044                                   |

Contribution rates for Plan fiscal years (September to August) 2017 and 2018 follow:

|  | Contribution Rates<br><u>Plan Fiscal Year</u> |                     |
|--|---|---------------------|

## NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

## **Contributions** (Continued)

Contributors to the plan include members, employers, and the State of Texas as the only nonemployer contributing entity.

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers, including junior colleges, are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, when employing a retiree of the TRS, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge.

#### Actuarial Assumptions

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

The total pension liability in the August 31, 2017 actuarial valuation, was determined using the following actuarial assumptions:

| Valuation date<br>Actuarial cost method<br>Asset valuation method<br>Actuarial assumptions: | August 31, 2017<br>Individual Entry Age Normal<br>Market Value |
|---|--|
| Single discount rate  | 8.00%  |

| Salary increases including inflation  | 3.50% to 9.50%   |
| Payroll growth rate   | 2.50%  |
| Benefit changes during the year   | None   |
| Ad hoc postemployment benefit changes   | None   |

## NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

#### **Changes Since the Prior Actuarial Valuation**

There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

#### **Discount Rate**

The discount rate used to measure the total pension liability was 8.0 %. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from Plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current Plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2017. are summarized below:

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2018, the College reported a liability of \$10,237,600 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the College. The amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

| College's proportionate share of the net pension liability | \$10,237,600          |

## NOTE 11 - EMPLOYEES' RETIREMENT PLANS (CONTINUED)

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The net pension liability was measured as of August 31, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The College's proportion of the net pension liability was based on the College's contributions to the pension plan relative to the contributions of all participating entities to the Plan for the period September 1, 2016, through August 31, 2017.

At August 31, 2017, the College's proportion of the collective net pension liability was 0.0320179026%, which is a decrease of 0.0035227968% from its proportion measured as of August 31, 2016.

For the year ended August 31, 2018, the College recognized pension expense of \$478,783 and revenue of \$478,783 for support provided by the State.

At August 31, 2018, the College reported its proportionate share of the TRS's deferred outflows or resources and deferred inflows of resources related to pensions from the following sources:

|  | Οι | Deferred<br>utflows of<br>esources | h         | Deferred<br>nflows of<br>esources |

The \$1,154,173 reported as deferred outflows of resources related to pensions resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended August 31, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### **Optional Retirement Plan – Defined Contribution Plan**

*Plan Description.* Participation in the Optional Retirement Program (ORP) is in lieu of participation in the TRS. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

*Funding Policy.* Contribution requirements are not actuarially determined, but are established and amended by the Texas State Legislature. The percentage of participant salaries currently contributed by the state is 6.6% for fiscal years 2018 and 2017. The participant contribution rate is 6.65% for both 2018 and 2017. The College contributes 1.31% for employees who were participating in the optional retirement program prior to September 1, 1995. Benefits fully vest after one year plus one day of employment.

Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. S.B. 1812, effective September 1, 2013, limits the amounts of the state's contribution to 50% of eligible employees in the reporting district.

The ORP expense to the state for the College was \$244,507, \$205,009, and \$225,761 for the fiscal years ended August 31, 2018, 2017, and 2016, respectively. This amount represents the portion of expended appropriations made by the state legislature on behalf of the College.

The total payroll of employees covered by the ORP was \$7,598,734, \$7,051,864, and \$7,867,546 for fiscal years 2018, 2017, and 2016, respectively.

## **College-Sponsored Benefit Plans**

The College has a voluntary employee defined contribution 403(b) plan administered by the Plan's trustee. The Plan is funded by matching employee and employer contributions of 6.65% of employee compensation. Plan funds are held in trust and are administered by the College's Vice-President of Business Affairs with oversight by the Board of Regents. The Plan was amended during the year ended August 31, 2016 to allow for loans against the participants' investments and to allow for participant directed investing. Full-time employees and certain part-time employees are eligible to participate and are fully vested at all times. At August 31, 2018, 2017,

and 2016, there were 953, 916, and 923, respectively, plan participants. The related expense was \$2,037,912, \$1,565,122, and \$1,575,633 for the years ended August 31, 2018, 2017, and 2016, respectively.

The College sponsors the Amarillo College Benefit Plan (the Plan) which provides disability and survivorship benefits. The Plan is a non-trusted benefit program and currently has \$5,267,982 in assets with a liability of \$5,267,982 recorded in Funds Held for Others. The Colleges contributions to the Plan for August 31, 2018, 2017, and 2016 were \$217,592, \$198,875, and \$200,348.

Part-time employees that are not covered by the defined contribution employee benefit plan are covered by a plan established pursuant to IRC Section 457. As a result of the passage of the Small Business Job Protection Act of 1996, beginning January 1, 1999, part-time plan funds are held by a third party custodian in individual trust accounts for the exclusive benefit of the participants. Investments are directed by the investment manager of the plan. The College is responsible for selecting the investment manager. The related expense was \$138,012, \$138,796, and \$222,310, for the years ended August 31, 2018, 2017, and 2016, respectively.

## NOTE 12 - DEFERRED COMPENSATION PROGRAM

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Government Code 609.001.

## NOTE 13 - COMPENSABLE ABSENCES

Full-time employees earn annual leave from eight to twelve hours per month depending on the number of years employed with the College. The College's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of hours up to 160 for those employees with five or less years of service, up to 200 hours for those employees with more than five years but under ten years of service, and up to 240 hours for those employees with more than ten years of service. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. The College recognized the accrued liability for the unpaid annual leave in the amount of \$1,187,434 as of August 31, 2018. Sick leave, which can be accumulated up to 120 days, is earned at the rate of eight hours per month; however, sick leave is not paid at termination. The College's policy is to recognize the cost of sick leave when utilized by employees.

## NOTE 14 - ENDOWMENTS

KACV-TV (the Station) is part of and is operated by the College. In 1999, the Station received \$1,000,000 from the Sybil B. Harrington Living Trust (Harrington Trust) which was specified as an endowment. In 2005, the Station received an additional \$500,000 gift from an anonymous donor that was to be held as an endowment. The College also received a \$1,000,000 endowment from the Harrington Trust for the Harrington Library Consortium.

#### NOTE 15 - COMMITMENTS, CONTINGENCIES AND LAWSUITS

The College participates in various state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. In the opinion of the College's management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies. Additionally, the College's students participate in the Federal Direct Loan Program for which the proceeds are used for tuition and education-related costs. Regulations require that default rates pertaining to loans to persons attending the College not exceed certain levels at the College. In the event that specific levels were exceeded, the program could be discontinued at the College; however, the College does not anticipate this occurring. The total amount of Direct Loans made during 2018 was \$12,246,820.

In August 2017, the College committed to participate in the expansion of the ACE mission by establishing and participating in the ACE Amarillo Scholarship Fund to be maintained at the Amarillo Area Foundation for the benefit of Amarillo Independent School District high school graduates. The College will participate in the funding of this project with three other partners. Contributions from the College should not exceed \$3,500,000 and will be made over a six-year period.

On August 31, 2018, various claims involving the College were pending. While the ultimate liability with respect to litigation and other claims asserted against the College cannot be reasonably estimated at this time, this liability, if any, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College.

## NOTE 16 - DISAGGREGATION OF RECEIVABLES AND PAYABLES BALANCES

#### Accounts Receivable

Accounts receivable at August 31, 2018 were as follows:

| Student receivables             | \$ 6,972,716 |

## NOTE 17 - CONTRACT AND GRANT AWARDS

Contract and grant awards are accounted for in accordance with the requirements of the American Institute of Certified Public Accountants (AICPA) Industry Audit Guide, *Audits of Colleges and Universities*. Revenues are recognized on Exhibit 2, Schedule A, and Schedule C.

For federal and nonfederal contract and grant awards, funds expended, but not collected, are reported as accounts receivable on Exhibit 1. For federal and nonfederal contract and grant awards, funds received, but not yet expended, are reported as deferred revenue on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements. Contract and grant awards funds already committed, e.g., multi-year awards, or funds awarded during fiscal year 2018 for which monies have not been received nor funds expended, totaled \$7,871,834. Of these amounts, \$2,590,514 were from federal contracts and grant awards, \$4,079,568 were from state contract and grant awards, and \$1,201,752 were from private contract and grant awards for the fiscal year ended 2018.

## NOTE 18 - SELF-INSURED PLANS

The College does not participate in public entity risk pools. Claims and judgments are accounted for in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*. Property and casualty risks are insured through insurance contracts. Workers' compensation risks are substantially covered by insurance. Health claims are fully covered by the state of Texas.

## NOTE 19 - HEALTH CARE AND LIFE INSURANCE BENEFITS

Certain healthcare and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The state recognizes the cost of providing these benefits by expending the annual insurance premiums. The state's contribution per full-time employee was approximately \$622 per month for the year ended August 31, 2018, (\$617 per month for the year ended August 31, 2017) and totaled \$3,906,122 for the year ended August 31, 2018, (\$3,475,404 for the year ended August 31, 2017). The cost of providing those benefits for retirees in the year ended 2018 was \$1,745,845 (retiree benefits for retirees cost \$1,702,008 in 2017). For active employees, the cost of providing benefits was \$2,160,277 for the year ended 2018 (active employee benefits for employees cost \$1,773,396 for the year ended 2017).

Beginning September 1, 2013, S.B. 1812 limited the state's contribution to 50% of eligible employees for community colleges.

## NOTE 20 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN

## Plan Description

The College participates in a cost-sharing, multiple employer, other post-employment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

## **OPEB Plan Fiduciary Net Position**

Detailed information about the GBP's fiduciary net position is available in the separately issued ERS Comprehensive Annual Financial Report (CAFR) that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at <a href="https://ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management">https://ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management</a>; or by writing to ERS at: 200 East 18<sup>th</sup> Street, Austin, TX 78701; or by calling (877)275-4377. The fiduciary net position of the plan has been determined using the same basis used by the OPEB plan.

## NOTE 20 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

#### **Benefits Provided**

Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

#### Contributions

Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds.

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

Many actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2014 for higher education members.

## Changes Since the Prior Actuarial Valuation

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- New demographic assumptions, assumed aggregate payroll increases and rate of general inflation were updated to reflect an experience study;
- The percentage of current and future retirees and retiree's spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan who will elect to participate at the earliest date at which coverage can commence has been updated to reflect recent plan experience and expected trends.
- The proportions of future retirees covering dependent children and future retirees assumed to be earned and electing coverage
- Assumptions for administrative expenses, assumed per Capita Health Benefit Costs, Health Benefit Cost and Retiree Contribution trends to reflect recent health plan experience; and it's effects in short-term expectations and revised assumed rate of general inflation.
- The discount rate was lowered from 5.5% to 3.51% as a result of requirements of GASB 74 to utilize the yield or index rate for 20-year, tax exempt general obligation bonds rated AA/Aa (or equivalent or higher).

The following benefit revisions have been adopted since the prior measurement date.

- An increase in the out-of-pocket cost applicable to services obtained at a free-standing emergency facility;
- An elimination of the copayment for virtual visits;

## NOTE 20 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

#### Changes Since the Prior Actuarial Valuation (Continued)

- A copay reduction for Airrosti and for out-of-state participants;
- Elimination of the deductible for in-network services and application of a copayment rather than coinsurance to certain services like primary care and specialist visits.

These minor benefit changes have been reflected in the fiscal year 2018 Assumed Per Capita Health Benefit Costs.

#### Investment Policy

The State Retiree Health Plan is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The System's Board of Trustees adopted the amendment to the investment policy in August 2017 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 2.4%.

#### **Discount Rate**

Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate in the prior fiscal year was 5.5%. The discount rate assumption was lowered as a result of requirements by GASB No. 74. At the beginning of the measurement year the discount rate was 2.84%. The discount rate used to measure the total OPEB liability as of the end of the measurement year was 3.51%, which amounted to an increase of 0.67% from the beginning of the year. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp's AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable to zero years.

## **Discount Rate Sensitivity Analysis**

The following schedule shows the impact of the College's proportionate share of the collective Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.51%) in measuring the Net OPEB Liability.

## Healthcare Cost Trend Rates Sensitivity Analysis

The initial healthcare trend rate is 8.5% and the ultimate rate is 4.5%. The following presents the College's proportionate share of the collective net OPEB Liability of the plan using the assumed healthcare cost trend rate, as well as what the net OPEB Liability would be if it were calculated using a healthcare cost trend rate that is one-percentage point lower or one-percentage point higher than healthcare cost trend rate that was used (8.5% decreasing to 4.5%) in measuring the Net OPEB Liability.

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2018, the College reported a liability of \$71,519,923 for its proportionate share of the ERS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the College. The amount recognized by the College as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the College were as follows:

| College's proportionate share of the collective Net OPEB Liability | \$71,519,923         |
|--|----------------------|
| State's proportionate share that is associated with the College    | 60,737,347           |
| Total  | <u>\$132,257,270</u> |

The net OPEB liability was measured as of August 31, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The College's portion of the net OPEB liability was based on the College's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2016 through August 31, 2017.

At the measurement date August 31, 2017, the College's proportion of the collective net OPEB liability was 0.20990197%. Since this is the first year of implementation, the College does not have the proportion measured as of August 31, 2016. The Notes to the Financial Statements for August 31, 2016 for ERS stated that the change in proportion was immaterial and, therefore, disregarded this year.

## NOTE 20 - DEFINED OTHER POSTEMPLOYMENT BENEFIT PLAN (CONTINUED)

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (Continued)

For the year ended August 31, 2018, the College recognized total OPEB expense of \$5,146,833 and revenue for support provided by state and federal sources of \$3,311,352.

At August 31, 2018, the College reported its proportionate share of the ERS's collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | 0         | Deferred<br>utflows of<br><u>Resources</u> | Deferred<br>Inflows of<br><u>Resources</u> |

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Tax collections for the year ended August 31, 2018, were 98.90% of the current tax levy. Allowance for uncollectible taxes is based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking fund expenditures.

## NOTE 22 - TAX ABATEMENTS

The College receives reduced property tax revenues as a result of exemptions granted by the City of Amarillo. The exemptions are intended to promote economic development in the Amarillo area. For the fiscal year ended August 31, 2018, the College's property tax revenues were reduced by \$388,838 under these exemptions. There are no significant abatements made by the College.

## NOTE 23 - BRANCH CAMPUS MAINTENANCE TAX

A branch campus maintenance tax that is established by election is levied by Moore County and Hereford Independent School District. It is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District. Collections are transferred to the College to be used for operation of a branch campus in Dumas, Texas, and Hereford, Texas. This revenue is reported under local grant contracts. Collections in fiscal year 2018 (including penalties and interest) from Moore County totaled approximately \$1,073,000, and from Hereford Independent School District totaled approximately \$743,000.

## NOTE 24 - INCOME TAXES

The College is exempt from income taxes under IRC Section 115, *Income of States, Municipalities, Etc.*, although unrelated business income may be subject to income taxes under IRC Section 511(a)(2)(B), *Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations.* The College had no significant unrelated business income for the year ended August 31, 2018.

## NOTE 25 - RELATED PARTIES

The Amarillo College Foundation, Incorporated (the Foundation) is a nonprofit organization with the primary purpose of supporting the educational and other activities of various entities, including the College. The Foundation solicits donations and awards scholarships, including substantial scholarships to students not attending the College. The College does not appoint a voting majority to the board of directors nor does it fund or is it obligated to pay debt related to the Foundation. Accordingly, the Foundation has not been presented as a discrete component unit of the College.

The Foundation remitted restricted gifts of approximately \$66,000 to the College during the year ended August 31, 2018. During the fiscal year, the College furnished certain services, such as office space, utilities and some staff assistance, to the Foundation. The amount of such services provided by the College has not been determined.

## NOTE 26 - BLENDED COMPONENT UNIT

#### Amarillo Foundation for Education and Business

On November 14, 2012, the Board of Regents entered into an agreement with an independent foundation entitled Amarillo Foundation for Education and Business (AFEB) for the sole purpose of selling land on East Campus. The land is held by the College which, in turn, sells the land to AFEB when AFEB has found a buyer. The board of directors consists of five members, two of whom are appointed by PRANA Development Group, LLC, and three members who are appointed by the College. AFEB is considered a blended component unit of the College. There were no sales during the fiscal year ended August 31, 2018.

## **NOTE 27 - NEW GASB PRONOUNCEMENTS**

The Governmental Accounting Standards Board has issued several new pronouncements that the College has reviewed for application to their accounting and reporting.

## NOTE 27 - NEW GASB PRONOUNCEMENTS (CONTINUED)

#### **Recently Issued Accounting Pronouncements**

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, replaces the requirements of GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Among other things, Statement 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide and requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information about their OPEB liabilities. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2017. The College implemented this statement in 2018.

GASB Statement No. 83, Certain Asset Retirement Obligations, establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations (AROs). It requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred and requires that a deferred outflow of resources associated with an ARO to be measured at the amount of the corresponding liability upon initial measurement. In addition, this statement requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation, at least annually, and requires a government to evaluate all relevant factors, at least annually, and requires a government to evaluate all relevant factors, at least annually, to determine whether the effects of one or more of the factors are expected to significantly change the estimated asset retirement outlays. In cases where governments are legally required to provide funding or other financial assurance for their performance of asset retirement activities, this statement requires disclosure of how those funding and assurance requirements are being met, as well as the amount of any assets restricted for payment of the government's AROs, if not separately displayed in the financial statements. This statement also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. GASB 83 is effective for financial statements for reporting periods beginning after June 15, 2018. The College implemented this statement in 2018.

GASB Statement No. 84, *Fiduciary Activities*, the objective of this statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement establishes criteria for identifying fiduciary activities of all state and local governments. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. This statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. GASB No. 84 is effective for reporting periods beginning after December 15, 2018. Earlier application is encouraged. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 85, *Omnibus 2017,* the objective of this statement is to address practice issues that have been identified during implementation and application of certain GASB

## NOTE 27 - NEW GASB PRONOUNCEMENTS (CONTINUED)

## Recently Issued Accounting Pronouncements (Continued)

statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). GASB 85 is effective for reporting periods beginning after June 15, 2017. The College implemented this statement in 2018.

GASB Statement No. 86, *Certain Debt Extinguishment Issues*, the primary objective of this statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources – resources other than the proceeds of refunding debt – are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance debt that is extinguished and notes to financial statements for debt that is defeased in substance. GASB 86 is effective for reporting periods beginning after June 15, 2017. The College implemented this statement in 2018.

GASB Statement No. 87, *Leases*, the objective of this statement is to better meet the information needs of the financial statement users by improving accounting and financial reporting for leases by governments. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. This statement establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. GASB 87 is effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 88, *Certain Disclosures Related to Debt, Including Borrowing and Direct Placements.* The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Earlier application is encouraged. The College is currently evaluating the effect of this statement on their financial statements.

## NOTE 27 - NEW GASB PRONOUNCEMENTS (CONTINUED)

#### Recently Issued Accounting Pronouncements (Continued)

GASB Statement No. 89, Accounting For Interest Cost Incurred Before the End of a Construction Period. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively. The College is currently evaluating the effect of this statement on their financial statements.

GASB Statement No. 90, Majority Equity Interests – An Amendment of GASB Statements No. 14 and No. 61. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special-purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value. For all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit, and the government or fund that holds the equity interest should report an asset related to the majority equity interest using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. Transactions presented in flows statements of the component unit in that circumstance should include only transactions that occurred subsequent to the acquisition. The requirements of this Statement are effective for reporting periods

beginning after December 15, 2018. Earlier application is encouraged. The requirements should be applied retroactively, except for the provisions related to (1) reporting a majority equity interest in a component unit and (2) reporting a component unit if the government acquires a 100 percent equity interest. Those provisions should be applied on a prospective basis. The College is currently evaluating the effect of this statement on their financial statements.

## NOTE 28 - SUBSEQUENT EVENTS

The College evaluated for inclusion as a subsequent event disclosure those events that occurred prior to November 27, 2018, the date the financial statements were issued.

On January 23, 2018 the Amarillo College Board of Regents at its regular board meeting approved the sale of a 6.2588-acre tract of land to the City of Hereford at fair market value (\$218 thousand). The citizens of Hereford voted on November 6, 2018 to approve the joint use of funds from the Hereford Economic Development Corporation (\$2.5 million) and reserve funds from the City of Hereford (\$4 million) to be used toward acquiring land and constructing a new civic center that would be adjacent to the Amarillo College Campus in Hereford.

This information is an integral part of the accompanying financial statements.

#### AMARILLO COLLEGE NOTES TO REQUIRED SUPPLEMENTARY INFORMATION Year Ended August 31, 2018

## NOTE 1 - CHANGES OF BENEFIT TERMS FOR PENSION LIABILITY

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

## NOTE 2 - CHANGES OF ASSUMPTIONS FOR PENSION LIABILITY

There were no changes of assumptions that affected measurement of the total liability during the measurement period.

## NOTE 3 - CHANGES OF BENEFIT TERMS FOR OPEB

The following benefit revisions have been adopted since the prior measurement date.

- An increase in the out-of-pocket cost applicable to services obtained at a free-standing emergency facility;
- An elimination of the copayment for virtual visits;
- A copay reduction for Airrosti and for out-of-state participants;
- Elimination of the deductible for in-network services and application of a copayment rather than coinsurance to certain services like primary care and specialist visits.

These minor benefit changes have been reflected in the fiscal year 2018 Assumed Per Capita Health Benefit Costs. There are no benefit changes for HealthSelect retirees and dependents for whom Medicare is primary.

## NOTE 4 - CHANGES IN ASSUMPTIONS FOR OPEB

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- New demographic assumptions, assumed aggregate payroll increases and rate of general inflation were updated to reflect an experience study;
- The percentage of current and future retirees and retiree's spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan who will elect to participate at the earliest date at which coverage can commence has been updated to reflect recent plan experience and expected trends.
- The proportions of future retirees covering dependent children and future retirees assumed to be earned and electing coverage
- Assumptions for administrative expenses, assumed per Capita Health Benefit Costs, Health Benefit Cost and Retiree Contribution trends to reflect recent health plan experience; and it's effects in short-term expectations and revised assumed rate of general inflation.
- The discount rate was lowered from 5.5% to 3.51% as a result of requirements of GASB 74 to utilize the yield or index rate for 20-year, tax exempt general obligation bonds rated AA/Aa (or equivalent or higher).

# **NOTE 1 - FEDERAL ASSISTANCE RECONCILIATION**

A reconciliation of federal financial assistance per the schedule of operating revenues and nonoperating revenues to the Schedule of Expenditures of Federal Awards is as follows:

| Federal Grants and Contracts Revenue per Schedule A                      | \$    6,467,853      |
|--|----------------------|
| Federal Grants and Contracts Revenue per Schedule C                      | 16,805,032           |
| Federal Direct Student Loans   | <u>12,246,820</u>    |
| Total federal revenues per Schedule of Expenditures<br>of Federal Awards | <u>\$ 35,519,705</u> |

# NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES USED IN PREPARING THE SCHEDULE

The expenditures included in the schedule are reported for the College's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds that have been expended by the College for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies in the preparation of the schedule. The College did not use the 10% de minimus rule allowed by Uniformed Guidance section 200.414.

# SINGLE AUDIT SECTION

# Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Regents Amarillo College Amarillo, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Amarillo College (the College) which comprise the statements of net position as of August 31, 2018 and the related statements of statements of revenues, expenses, and changes in net position and cash flows as of and for the year ended August 31, 2018, and the related notes to the financial statements and have issued our report thereon dated November 27, 2018.

# Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This page left blank intentionally.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance and the State of Texas Uniform Grants Management Standards

Board of Regents Amarillo College Amarillo, Texas

# Report on Compliance for Each Major Federal and State Program

We have audited Amarillo College's (the College) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* and the State of Texas Uniform Grants Management Standards that could have a direct and material effect on each of the College's major federal and state programs for the year ended August 31, 2018. The College's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance with the federal statutes, regulations, contracts, and the terms and conditions of its federal and state awards applicable to its federal and state programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State of Texas Uniform Grants Management Standards (State UGMS). Those standards, the Uniform Guidance and the State UGMS require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance, with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program, occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the College's compliance.

# **Opinion on Each Major Federal and State Program**

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2018.

This page left blank intentionally.

# **Other Matters**

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and the State UGMS which are described in the accompanying schedule of findings and questioned costs as item 2018-001. Our opinion on each major federal and state program is not modified with respect to these matters.

The College's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the response.

# Report on Internal Control over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal and state program and to test and report on internal control over compliance in accordance with the Uniform Guidance and the State UGMS, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiencies, in internal control over compliance is a deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of the federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2018-001 that we consider to be a significant deficiency.

The College's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the State UGMS. Accordingly, this report is not suitable for any other purpose.

# Finding 2018-001

| Program:                           | Texas Educational Opportunity Grant (TEOG) – State Grant  |
|------------------------------------|---|
| Compliance<br>Requirement:         | Cash Management   |
| Condition:                         | The Spring funds were not distributed to eligible students accounts within the 3-day requirements. Funds received on February 23, 2018, were not completely allocated until March 1, 2018.  |
| Criteria:                          | Student's accounts are to be credited within 3-days of receiving funds.   |
| Cause:                             | Rule 19 TAC. Section 22.2 rule changed from a previous 5 days to 3 days in 2017-2018. The College continued to work under the standard of 5 days.   |
| Effect:                            | Students did not receive grant funds in the timeframe they are eligible to receive. This has the potential to affect the College's qualifications to receive funds in the future.   |
| Context:                           | This error was discovered during cash management testwork. The College received the funds on February 23, 2018 and began allocating on the following Monday of February 26, 2018. The process was completed by Thursday March 01, 2018. |
| Recommendation:                    | We recommend that the College implement procedures to allocate the TEOG funds within Program Guidelines.  |
| Views of Responsible<br>Officials: | The one instance cited was a result of overlooking a procedural change.<br>The institution believes this to be an isolated incident.  |

Corrective Action for Audit Finding 2018-001 Texas Educational Opportunity Grant (TEOG) – State Grant

# Cause and Corrective Action:

The one instance cited was a result of the funds not being distributed within the three day window. This was an oversight by the Financial Aid Office to timely post funds that were received by the business office on a Friday afternoon.

In order to resolve this finding, the Financial Aid Office will ensure that funds that are received by the Business Office are posted to student accounts within the allowable three day window. The Director of Financial Aid will track the timing of all disbursements once notification of deposits are received.

The Institution believes this is an isolated incident.
