

# AMBER ALERT

U.S. Department of Justice (DOJ), Office of Justice Programs (OJP) and  
Office of Juvenile Justice and Delinquency Prevention Programs (OJJDP) are pleased to announce:

## Interrogation Techniques in Child Exploitation Cases

September 20-22, 2016 | Amarillo, TX

### Training Description

This course will focus on a conversational approach to interrogation. Participants will learn how to cumulatively confront the suspect in child exploitation and child maltreatment cases, to include the challenging child sex trafficking suspect. Through an in-depth study of the entire interrogation process, participants will learn proven techniques to enable participants to obtain a full confession. The dynamics of the process will be presented as well as many subtleties that may often go unaddressed by the interrogator. Modules will also identify the role that cultural and behavioral issues bring to the interrogation room; legal considerations; and how to identify and overcome deception. Critical stages of the interrogation process will be broken down into sections of: Rights, Pre-Interrogation Interview, Cumulative Confrontation, and Closing the Interrogation. These points will be demonstrated with video examples and practical interactive case studies with these specific types of offenders.

### Who Should Attend

Law enforcement, social services, prosecutors, and probation/parole responsible for conducting offender interview and interrogations are strongly encouraged to attend.
