

Housing at East Campus Fencing Policy

Tenants wanting to install a new fence or make changes or alterations to an existing fence must notify the Amarillo College Housing Office.

An Amarillo College representative will come to your home and show you the parameters for your fence installation. Please note that all NEW fence installations must consist of either picket or chain link and use either wood, metal, or T-post. All fences must be kept in good condition – no part of the fence can be sagging, missing or leaning.

You agree to call 811 BEFORE the installation of your fence in order to have the property marked to ensure safety.

By signing this document, you are acknowledging that you have read and understand the fencing policy.
