Course cost and other content subject to change at any time. Revised May 2011.

If you received a citation for not wearing your seat belt or for not having a child in a properly fitted restraint, Amarillo College and I DRIVE SAFELY can help. We offer a 6-hour Seatbelt/Child Safety (Occupant and Child Passenger Safety-OCPS) course that is approved by the Texas Education Agency and, with the permission of the court, meets the legal requirements for traffic ticket dismissal. You will learn about traditional occupant safety information, but also Texas-specific rules and regulations like state seatbelt laws and child restraint regulations. The I DRIVE SAFELY course is the only state-approved online course in Texas.

You will take several short multiple-choice quizzes in each chapter throughout the course. You must take and pass a final exam upon completion of the course. You must score 70 percent or more on the final exam before a Certificate of Completion will be processed or mailed to you. If you score less than 70 percent, you must retake the final exam.

Our course includes chapters on the following topics:

- The occupant protection problem
- Factors that influence driving performance
- Understanding and controlling physical forces
- Occupant protection equipment
- Vehicle structure: designed for safety
- Crash dynamics
- Understanding seat belts
- Understanding air bags
- Child restraint systems: types and parts
- Child restraint systems: selection and installation
- Child restraint systems: misconceptions, misuse, and miscellaneous tips
- Today's driving dangers

I DRIVE SAFELY's driving education courses are designed to take the hassle out of driving school. No boring teachers, no classroom, no workbooks, no pencils or notes - everything you need to complete the course is right on your personal computer. All you need is your driver's license number, and you're ready to log in to start taking the course. And with our worry-free money-back guarantee, you can be sure you're completely happy with the course before being out the cash.

Each I DRIVE SAFELY course has a combination of text, graphics, animations, and videos - so you won't get bored while you're learning. Instead of listening to a teacher drone on and on, you have the ability to move at your own pace through the course. You don't have to complete the course in one sitting - our website remembers the section you last completed and puts you right back where you left off.

Still not convinced you have enough time to take the course? Remember, our courses are completely flexible and designed to fit effortlessly into your schedule. You can complete the course whenever and wherever you want - all you need is a computer and your login information! Whether you need a day, a week, or even a month to complete your course, it will be right there waiting for you.

Need more assistance? At any time during the process, you may contact a member of the I DRIVE SAFELY support team - they're ready to help you whenever you need it, 24 hours a day.
