

E-Mail

I'm having trouble trying to access my staff email through Outlook when I'm home. How do I fix this?

Trying to access your email at home with a work laptop can be tricky when trying to use Outlook.

Sometimes it works, sometimes it doesn't.

A more reliable way to access your email from home is to use the Outlook Web App:

<https://acmail16.actx.edu/>

Enter the same credentials you use to log into ACConnect.
