Amarillo College
DIVISION OF ALLIED HEALTH

Medical Data Specialist
A HEALTH SCIENCE CAREER

Contact:
Judy Massie
(806) 354-6068
Dear Prospective Student,

Thank you for your interest in the Medical Data Specialist Program. This program offers students the opportunity to enroll in a one year certificate plan.

Students in the program serve a practicum in medical facilities within the city of Amarillo, as well as in other towns and cities throughout the Texas panhandle. Students are required to successfully complete their classroom instruction and practicum prior to graduation.

Students are encouraged to begin the program during the Fall semester. Many classes require prerequisites and students need to look at the current college catalog to determine which prerequisites are required for classes prior to enrollment each semester. Students will not be allowed to enroll in these classes without fulfilling the required prerequisites.

If you are interested in applying for this program, please begin now to assemble your portfolio of application materials. **Read through the materials in this packet very carefully.** If you should have any questions, please feel free to call the department at (806)354-6068 or the Allied Health Division Secretary at (806)354-6055.

Sincerely,

Judy Massie, Program Director

jemassie@actx.edu

NOTE: **After you have completed your portfolio, please submit all of the required forms, transcripts and immunization records, either by mail or in person, to the MDS Program Director or the Allied Health Division Secretary at the above address.**

Amarillo College is an Equal-Opportunity Community College that does not discriminate on the basis of race, color, national origin, sex, age, religion or disability in its educational programs, activities or employment policies.
What is Medical Data Specialist?
Medical Data Specialist is an Allied Health specialty concerned with day to day administrative operations of medical facilities.

What does a Medical Data Specialist do?
Medical Data Specialists receive patients, schedule appointments, file insurance, collect fees, type correspondence, transcribe from medical dictation, code for federal and state reimbursements and maintain the patient’s medical record.

Are jobs available for Medical Data Specialists?
Although it is impossible to guarantee employment for all of our graduates, the current and future outlook for positions as Medical Data Specialists appears to be excellent. Job opportunities are available in Amarillo as well as the surrounding area. The greater demand, however, is increasing in the rural and metropolitan areas in other parts of the United States.

What type of job opportunities are available for Medical Data Specialists?
Medical Data Specialists may be employed in a variety of settings including hospital business offices, admission offices, physician and dental offices, insurance companies and home health care agencies.

What kind of salary can I expect to earn as a Medical Data Specialist?
The salaries for Medical Data Specialists are competitive with other health care professionals with similar educational credentials. Salaries will vary according to the supply and demand of the area, but will average $9.00 to $10.00 per hour for new graduates.

Will I have to go out of town for my practicum?
Possibly. Students who live out of town may be able to have their practicum in a medical facility close to home, pending approval from the Program Director. It is the responsibility of the student to make personnel arrangements for transportation, child care, alterations in work schedules, etc. when assigned to practicum rotations.

How can I apply for admission to the Medical Data Specialist program?
Students must apply to Amarillo College and also make a separate application to the Medical Data Specialist program. All the forms and materials necessary for admission to the MDS program are enclosed in this packet. Application forms for Amarillo College may be found in the current college catalog or they may be obtained from the Registrar’s Office on any of the Amarillo College campuses. If you need additional information, please contact the Medical Data Specialist office at (806) 354-6068 or the Allied Health Division Secretary at (806) 354-6055.

**TOTAL:** 4 1 7 0

**GRAND TOTAL:** 35 Hours
1. The applicant must have earned a high school diploma or a GED equivalent. Students who have not met this criteria at the time of application to the program must do so by the first day of class in the MDS program, or they will be dropped from the program and will have to reapply the following year.

2. The applicant must be admitted to Amarillo College and have all transcripts on file with Amarillo College and with the MDS program officials.

3. The applicant must complete and submit an application portfolio to the MDS Department at Amarillo College.

4. The applicant must take the Accuplacer test prior to application to the program, unless exempted by the appropriate official at the college. The Accuplacer test measures English, Math and Reading skills. All students should contact the Testing Center (371-5445) for information regarding testing requirements.

5. The applicant must meet the Functional Requirements for Admission and Progression in the Program and sign the attached form. (Included in this packet)

6. The applicant must make an appointment to meet with the MDS Program Director after submitting the application packet.

7. The applicant must sign the Amarillo College “Student Release and Waiver of Liability” form. (Included in this packet)

8. The applicant should have completed all of the required remedial Math, English, and Reading classes and passed each with a “C” or better prior to entering the program.

9. Proof of TB test or chest x-ray within the last 12 months

10. Proof of compliance with immunization requirements as required by Texas law for students in health career programs. A separate page is provided that describes the specifics of these immunization requirements.

11. The applicant must submit to a criminal background check via http://www.precheck.com

12. NOTE: All courses that are required for the MDS curriculum can be completed within one year for the certificate. Many students that work and/or have dependents find it preferable to complete either their general education requirements prior to entering the MDS program, or attend part-time, thereby reducing the total number of semester hours each semester. This option results in a commitment of more years for the completion of the MDS program, depending upon the number of semester hours in which the student is enrolled. It is up to the individual student to decide which option is the best for him or herself.
Medical Data Specialist Program
ADMISSIONS PROCESS

THE APPLICANT WILL COMPLETE AND SUBMIT AN APPLICATION PACKET. THE PACKET WILL CONTAIN EACH OF THE FOLLOWING:

1. Medical Data Specialist application form.
2. AC student “Release and Waiver of Liability” form.
3. Transcripts of all previous high school or college work, (whichever is most recent) or GED certificate, as appropriate.
4. Results of the Accuplacer Test.
5. Proof of the required vaccines.
6. Functional Requirements for Admission and Progression in the Program form.

Once the portfolio is complete, you must contact the Program Director at 354-6068.

OFFICIAL ADMISSION INTO THE MDS PROGRAM WILL BE COMPLETE ONLY WHEN ALL OF THE ABOVE DOCUMENTATION HAS BEEN RECEIVED AND REVIEWED BY THE MDS PROGRAM DIRECTOR.

Students should be aware that all information submitted by the student must be truthful to the best of the student’s knowledge. If it is discovered that a student knowingly gave false information on any of the forms required for application, he/she will be dismissed from the program.

At the present time, most eligible applicants are accepted on a first come, first served basis, pending the results of the personnel interview.

It is the sole responsibility of the applicant to keep the MDS Program Director informed of changes in the applicant’s name, address and/or telephone number. The MDS Program Director accepts no responsibility for program information that is misdirected due to incorrect/outdated student information.
The following requirements apply to all students enrolled in health-related programs in Texas schools, which will involve direct patient contact in program affiliated medical care facilities. This includes Medical Data Specialist majors.

1. Students who were born on or after January 1, 1957, must show prior to first patient contact, acceptable written evidence of vaccination of two doses of measles-containing vaccine administered since January 1, 1968. Serologic confirmation of immunity to measles is acceptable. Evidence of immunity must consist of a laboratory report that indicates either confirmation of immunity or infection.

2. Students must show, prior to program admission, written evidence of vaccination of one dose of rubella (German measles) vaccine. Serologic confirmation of immunity to rubella is acceptable. Evidence of immunity must consist of a laboratory report that indicates either confirmation of immunity or infection.

3. Students born on or after January 1, 1957, must show, prior to first patient contact, written evidence of vaccination of one dose of mumps vaccine. Serologic confirmation of immunity to mumps is acceptable. Evidence of immunity must consist of a laboratory report that indicates either confirmation of immunity or infection.

4. Students shall receive a complete series (three injections) of hepatitis B vaccine prior to first patient contact. Serologic confirmation of immunity to hepatitis B is acceptable. Evidence of immunity must consist of a laboratory report that indicates either confirmation of immunity.

5. Students shall receive two doses of varicella (Chicken Pox) vaccine, prior to first patient contact, unless the first dose was received prior to thirteen years of age. A physician validated history of varicella disease or varicella immunity is acceptable in lieu of the vaccine. Vaccination, if necessary, must take place before the student is accepted into the program of study.

6. One dose of tetanus-diphtheria toxoid is required within the last ten (10) years.

Note: The law requires that students be fully vaccinated against these specific diseases. A student may be provisionally enrolled if the student has an immunization record that indicates the student has received at least one dose of each specified vaccine required by law. To remain enrolled, the student must complete the required subsequent doses in each vaccine series on schedule and as quickly as is medically feasible and provide written evidence of vaccination to Amarillo College. The program faculty advisor to a provisionally enrolled student shall review the immunization status every 30 days to ensure continued compliance in completing the required doses of vaccination. If the student fails to complete the vaccination series, the student will not permitted to continue in those courses requiring direct patient contact until the respective vaccination series is complete.
Amarillo College and the Medical Data Specialist Program do not discriminate on the basis of race, color, national origin, sex, age, religion or disability when selecting students for admittance to the MDS program. There are, however, minimal functional abilities that a student must possess in order to perform the tasks essential to the study of Medical Data Specialist. The following is used as a guideline for the prospective student so that he/she may understand the essential functions necessary for successful completion of the Medical Data Specialist Program. This list is not intended to be all inclusive, but rather a detail of the basic physical, mental and psychomotor demands of this educational endeavor.

(Place a ✓ in the yes or no box, to indicate your ability to perform each essential function)

</tr>
</tbody>
</table>

Students who, because of a documented disabling condition, require reasonable accommodations to perform any of the essential functions, must contact the Office of ACcessibility Services at (806)371-5436 AS SOON AS POSSIBLE after applying to the program.

By my signature on this document, I acknowledge that I am able to perform the essential functions for admission and continuation in the MDS program, either unaided or by utilization of reasonable accommodations. I understand that if I am accepted into the program, and am subsequently unable to perform these functions, aided or unaided, I will be asked to withdraw from the program.

Furthermore, as Amarillo College and the Medical Data Specialist Program do not discriminate on the basis of disability, I understand that I must contact the Amarillo College Office of ACcessibility Services, with the proper documentation, in order that the necessary accommodations can be made, as required by the Federal Disabilities Act. If I make the decision not to contact the Office of ACcessibility Services, or if the Office of ACcessibility Services finds that no accommodations are necessary, I understand that accommodations cannot be made by either Amarillo College or the Medical Data Specialist Program.

SIGNATURE OF APPLICANT

DATE
AGREEMENT OF RELEASE made this day between AMARILLO JUNIOR COLLEGE DISTRICT ("Amarillo College") and ___________________________ ("Student").

In consideration of Student being permitted to enroll at Amarillo College in the Medical Data Specialist program and the acknowledgment of Student of the following facts:

1. That student will be required, as part of the normal educational process towards Student’s degree or certificate to be placed in a teaching environment including, but not limited to, local medical facilities, offices of local practitioners, ambulances, medical laboratories, and other medical environments (hereinafter called “medical affiliates”), Student may be exposed to conditions which could cause bodily injury and/or death and may be exposed to patients afflicted with terminal or potentially terminal disease processes which may be of a contagious nature; and,

2. That Student will first be provided, as part of the normal educational process toward Student’s degree or certificate with detailed information about the nature, risks and preventive measures related to communicable diseases of a terminal or potentially terminal nature prior to the assignment of Student in an environment where these diseases are known to be present; and,

3. That Student could be exposed to high risk toxic substances in the medical affiliates, but will first be provided with information concerning prevention from becoming ill with same.

Student does hereby:

1. Authorize Amarillo College officials to place Student into the respective medical affiliates as they deem necessary for the completion of Student’s educational program;

2. Release, waive, and convenant not to sue Amarillo College, its officers, agents, employees, and persons or entities acting together with Amarillo College in its education programs (hereinafter called “Releasees”) from all liability to Student for any and all loss or damage, and any claims or demands whatsoever therefore on account of injury to the person or property or resulting in the death of Student or emanating from exposure to said disease processes and toxic substances, or any of these, whether caused by the negligence of Releasees or otherwise while the Student is on or within any of the program medical affiliates;

3. Indemnify and hold harmless Releasees from any loss, liability, damage or cost that Student may incur due to the presence of Student in or upon any of the medical affiliates or in any way observing for any purpose or participating in the educational process in said medical affiliates; and,

4. Assume full responsibility for any and all risks due to participation in the normal educational process in the medical affiliates described above.

Student expressly acknowledges and agrees that the activities described above could be dangerous and involve the risk of injury and/or death and/or contracting terminal or potentially terminal disease processes and exposure to high risk toxic substances.

The UNDERSIGNED expressly agrees that the foregoing Release, Waiver, and Indemnity Agreement is intended to be as broad and inclusive as is permitted by the Laws of the State of Texas and if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect.

The UNDERSIGNED is at least eighteen years of age and has read and voluntarily signed the Release and Waiver of Liability and Indemnity Agreement, and agrees that no oral representations, statements or inducements apart from the foregoing written Agreement have been made.

I have read this document. I understand it is a release of all claims. I understand I assume all risks inherent in the educational process and clinical experience conducted in the medical affiliates of Amarillo College as part of my progressing toward a degree or certificate as set out above. I voluntarily sign my name evidencing my acceptance of the above provisions.
