APPLY TO BE A RED RAIDER

☐ Review admission requirements

Review assured admission criteria and special requirements for specific majors or academic colleges. | admissions.ttu.edu/transfer

☐ Apply for admission

Submit an application on applytexas.org or commonapp.com. Texas Tech has no application preference but you should only submit one application per admissions cycle.

☐ Create a RaiderConnect account

Check your application status, register for events, and submit supplemental documents. Use the same email and name as it appears on your application when creating an account. If you did not pay the \$75 application fee through the application, you can do so on RaiderConnect or submit fee waiver documents through the document uploader. | admissions.ttu.edu/feewaiver

☐ Submit official college transcripts

Official transcripts are required from all institutions you have attended. We will only consider coursework in progress for the long term prior to your term of entry to provide a decision on your application. If you are admitted with work in progress, your decision will be conditional. Conditional admits can still take all the next steps as an admitted student but need to submit a final college transcript by the 12th class day showing admission requirements are still met.
